

One of the great joys of a teacher is to see his student learn , put the learning into play and go beyond the teacher in ministry. This has happened a number of times in my ministry of teaching. A perfect example of this principle is in the person of Iulian Avramescu who is a part of the ministry of LIFE.

I taught Iulian at the Word of Life Bible Institute in Hungary during the two years of his studies in 2001-03. I could even recognize at that time that he had the leadership qualities that the Lord would use to make this young man a gifted servant, which is what a real leader is, a man or woman who is willing to "serve" the Lord wherever and however.

God lead Iulian to join forces with Eric Murphy in LIFE and return to his home country to establish a great work among young people in Romania as well as the Pastors serving in Romania. Iulian is now operating youth camps in western and southern Romania. His heart for training up pastors has led him to put together a major Pastors Conference for this Winter that will be used to train men to lead their churches into the future with a solid Biblical base.

I would encourage anyone reading this endorsement of Iulian to prayerfully consider partnering with him in ministry as he reaches out to the youth of Romania and to the Pastors of this region as they become better prepared to minister to the people in their churches. The time is short, Jesus is coming and until He does return we must reach people for Christ and train them to go reach others.
